LOEWIN JON VILLANUEVA

BS Information Technology Student | OJT Applicant — Web Development & Software Engineering
Nueva Ecija, Philippines loewinvillanueva07@gmail.com linkedin.com/in/loewin-villanueva-a9a019312 loewin.vercel.app

SUMMARY

BS Information Technology student at Central Luzon State University (Presidential Award, University Scholar) seeking an internship/OJT position in web development and software engineering. Eager to apply my full-stack experience in Next.js, React, Python, FastAPI, and PostgreSQL to real-world projects, learn from experienced engineers, and contribute to a team while growing into a dependable developer. Backed by three Google certifications and a record of leading teams on campus and in freelance work.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, PHP, C, SQL
Frameworks & UI: Next.js, React, FastAPI, Tailwind CSS, shadcn/ui
Databases & Storage: PostgreSQL, MySQL, Supabase, Cloudinary
AI & Retrieval: RAG, pgvector, PGLite, MCP, Ollama, Hermes Agent
Tools & DevOps: Git, GitHub, Linux CLI, Vercel, Cloudflare, Render, Postman, Swagger UI, CI/CD
Core Concepts: Agile/Scrum, Networking, OS Administration, IT Security Basics, debugging, automation

TECHNICAL EXPERIENCE

Capstone Project | CourtFlow Web-Based Legal Case Management Platform
Frontend: Next.js, React, TailwindCSS — Backend: Python, FastAPI, PostgreSQL — DevOps: Git, CI/CD, Vercel, Render
- Built a full-stack legal case management platform automating intake, scheduling, and document workflows for a law office serving 200+ clients.
- Designed a PostgreSQL schema with role-based access control and GIN indexes for instant full-text search across cases and legal documents.
- Built a version-controlled document system on Supabase Storage and cron-based hearing reminders that eliminated missed deadlines.
- Shipped in an Agile Scrum team, deploying the Vercel frontend and Render backend through GitHub CI/CD.

Full-Stack Developer | Muñoz Bike Rental
Frontend: React, Vite — Backend: Python, FastAPI, Supabase (PostgreSQL) — Media: Cloudinary
- Built catalogue, date-based availability, and multi-bike checkout for a 100+ bike shop, with GCash receipt upload (routed to Cloudinary for staff review) or cash at pickup.
- Modeled one booking with many rentals (one per bike), priced by daily or weekly rate; secured the API with Google OAuth and JWT.

PERSONAL PROJECTS

Autonomous Agent & Local Knowledge Graph | *Hermes Agent, GBrain, PGLite, MCP, Ollama, Qwen3.5, Obsidian, V1*
- Self-hosted Nous Research's Hermes Agent with a local Qwen3.5 4B model via Ollama on a 4 GB GPU laptop, tuning context (64K), flash attention, and KV-cache quantization to meet the agent's requirements.
- Deployed GBrain (open-source, MIT) with a local PGLite engine, connected to the agent over MCP, to index a 1,000+ note Markdown vault for hybrid semantic and keyword search.
- Configured cited-answer queries that surface links between non-adjacent notes and output [[wikilinks]] that resolve in Obsidian.

Personal Portfolio & Technical Showcase | *Next.js, React, Tailwind CSS, Vercel*
- Designed and deployed a responsive personal site with project case studies, a skills section, and live links, hosted on Vercel.

CERTIFICATIONS

Google IT Automation with Python — Professional Certificate — *Mar 2026*
Coursera | Python, Git & GitHub, debugging, configuration management, IT automation
Google IT Support — Professional Certificate — *Jan 2025*
Coursera | Technical support, networking, operating systems, system administration, IT security
Google AI Essentials — *Nov 2024*
Coursera | Foundations of AI tools and responsible AI practices
AWS Academy Graduate — Cloud Foundations — Training Badge — *AWS Academy*

EDUCATION

Bachelor of Science in Information Technology — *2023 – Present*
Central Luzon State University, Nueva Ecija, Philippines
- **Academic Honors:** Presidential Award; University Scholar (AY 2023–2026)
- **Swimming:** Gold and Bronze Medalist, State Colleges and Universities Athletic Association (SCUAA) III, 2023–2025

LEADERSHIP & ADDITIONAL EXPERIENCE

Class President — Central Luzon State University — *AY 2024–2027*
Batch Leader — Builders of Information Technology Society (BITS) — *2026*
Student Coach — College of Engineering, Central Luzon State University — *2025–2026*
Team Captain — Varsity Swimming Team, Central Luzon State University — *2025–2026*
Project Manager / Digital Asset Manager, P2E Guild — Limitless Guild — *Nov 2021 – Jul 2022*
- Recruited and managed 20+ scholars, overseeing performance tracking, payroll, and resource allocation.

Personal Fitness Trainer / Swimming & Kickboxing Instructor — Self-employed — *Sep 2024 – Dec 2025*
- Coached 10+ clients through personalized programs, managing scheduling, appointments, and curriculum planning.
